

TTO Seminar: Proof-of-Concept Funding

Free & Open to All Faculty

Lunch Included

Proof-of-Concept Funding: What's New, and How to Get It.

The state of Colorado is making new proof-of-concept funding available to researchers at Colorado research institutions. Join the CU Technology Transfer Office for this free lunch-hour seminar, and get an overview of new and pending Proof-of-Concept (POC) grant programs, as well as insight into what makes for a successful POC proposal.

- ⇒ Learn about **new state funding** for bioscience, biofuels, and renewable energy
- ⇒ Hear TTO proof-of-concept program **success metrics and stories**
- ⇒ Find out how POC funding can help bring your research to the **real world**

Wednesday, March 5th
12– 1:30 pm
UCD Anschutz Campus
Academic Office I
Room 2101

Lunch will be provided; RSVP required. Contact:
Lindsay Polak
303-735-5518 or lindsay.polak@cu.edu

About the Speakers:

David Ross is a Professor of Toxicology at UC Denver, and Chair of the Department of Pharmaceutical Sciences. His project, “Hydroquinone

Ansamycin Pro-drugs as Novel Anticancer Hsp90 Inhibitors,” was funded in the first round of the State Bioscience Discovery Grant, and is now forming the basis of a startup company.

Rick Silva directs the UC Denver Technology Transfer Office, as well as Fitzsimons BioBusiness Partners.

Additionally, a speaker from Medlen & Carroll LLP will be on hand for additional discussion after the event.
